Laboratory Technician

Description

The successful applicant will work as part of a team in the diagnosis of animal diseases and laboratory research projects. The job will primarily involve support duties for the laboratory team. Duties will include booking in and preparing samples, basic equipment maintenance and calibration, stock checks, preparation of reagents, sending out sampling kits and other general support duties. Compliance with Good Manufacturing Practice and ISO:17025 will be required at all times. In time the successful candidate will be expected to work within our Containment Level 4 (CL4) facility.

Qualifications

You will have:

- National 5 (or equivalent) qualification in Mathematics, English and one science subject.
- Written work must be neat and legible.
- Excellent time management skills
- Experience of working within a laboratory environment would be advantageous although not essential as full training will be given.
- A full, clean driver's licence is essential.

Job Benefits

Staff benefits for this position include:

- 33 days annual leave (including bank holidays) rising to 35 after 5 years' service
- Life insurance
- Basic healthcare plan (payments towards optician, dentist and more)
- Discounted private medical insurance
- 'Perks' scheme with discounts at many online and high street retailers
- Employee support program
- Discount at our group veterinary practices
- Flexi-time system
- Generous maternity / paternity pay
- Buy and Sell holidays
- Cycle to work scheme
- CPD allowance

Contacts

To apply please send a copy of your C.V accompanied by a covering letter to the Laboratory Manager, Sarah McCallum (sarah.mccallum@biobest.co.uk). The closing date for applications is 21st March 25.
